## Student Spotlight

The students are all doing a terrific job settling in getting used to routines. This section will be used to highlight individuals throughout the year for excellence.

Welcome back! Students are off to a great start this year and have settled into our routines and procedures. In Language Arts class, we have begun our "100 Book Challenge" daily independent reading workshop. Meanwhile I am working individually with students to determine appropriate reading levels, needs, and strengths to best plan their future instruction. Ask students if they've found any great books they LOVE yet! Our goal this month has been to find something students LOVE to read!

Please join us next Wednesday at our Curriculum Night, held from 6:00-6:30 in the Big Building (6:45-7:15 for K-1 in the Little Building). Mrs. Quigley and I will present our curriculum materials, routines and give you a more detailed overview of our 4th grade year of academics. Additionally, parent conference sign ups will be available on this night, or through ClassDojo

Let me know if you have any questions by calling, emailing, or sending me a message via Class Dojo! If you still need help joining ClassDojo, let me know. Thanks!
